V8 SERIES INSPIRATION

Designed from the heart of a Spanish artist, the Simon V8 series is a representation of the most modern western aesthetics. Simon V8 series involve two magnificent styles: Simon V8 Nature, Simon V8 Classic and Simon V8 Basic.

The Simon V8 Nature adopts natural pure glass for the frames, which is glittering and translucent bringing an outstanding, elegant and fresh feeling to luxury environments.

Simon V8 Nature has unique patented features (CN200420020630.7). The switch on/off pulse speed is 0.03 seconds, 50% faster than normal switches. Moreover, it avoids electric arc and has longer lifespan.

Simon V8 Classic inspired by the tradition and history of Spanish culture. Pure metallic frame provide a great strength and an unique style.

Simon V8 Basic is the perfect way to complete this magnificent series with a more elementary solution.

Inspired by the effect of the elements on materials, Simon V8 series, envelops emblematic spaces with a minimalist design and unique materials inspired by nature: glass and metal.

Simon V8

More protection: safer and durable

No:1
Glass/metal frame

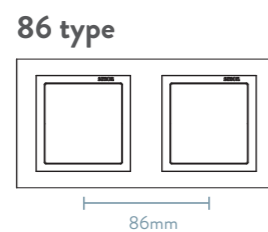

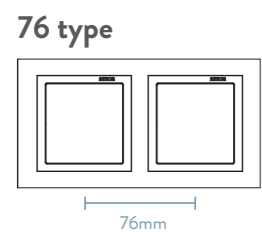

Tempered glass/metal materials, glittering. It is strong and anti-abrasive.

No:2
PC structure Insulating layer

High quality PC plastic material from Bayer. The PC material is resistant to heat and transmits good elasticity. The double protection between the frame and the mechanism make it safer and durable.

No:3
Insulated steel baseboard

Resistant stainless steel based board with insulating coating. It is anti-corrosive with a strong base that allows better integration between the switch and the mounting box.

Benefits

Ultrasonic soldering
 More reliable and protects the environment.

U type spring toggle
 With instant on/off and safer.

Double-hole compression wiring
 Suitable for many types of cables.

45 degree wiring
 Easy to do the wiring in a limited space. It reduces the installation time.

Color frames
 Customized frames available in different colors, suitable for any environment.

Children safety lock
 Designed to prevent children from getting electrocuted.

Whole current flow
 The large section area gives excellent conductivity avoiding danger and overheats.

Multiple structure
 Multi-gang frame, tidy and unique.

Environmental friendly
 Recyclable and environmentally friendly materials.

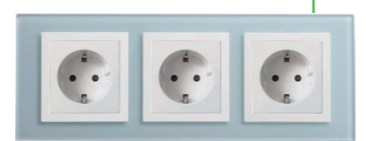

Home Functionalities

TV outlet+Telephone outlet+2 Pin socket+2 Pin socket
+Multi-standard socket with USB

Doorbell Switch

Multi-gang frame

The multi-gang frame keeps the wall neat.
It is possible to combine switch and sockets as you wish.

Multimedia sockets

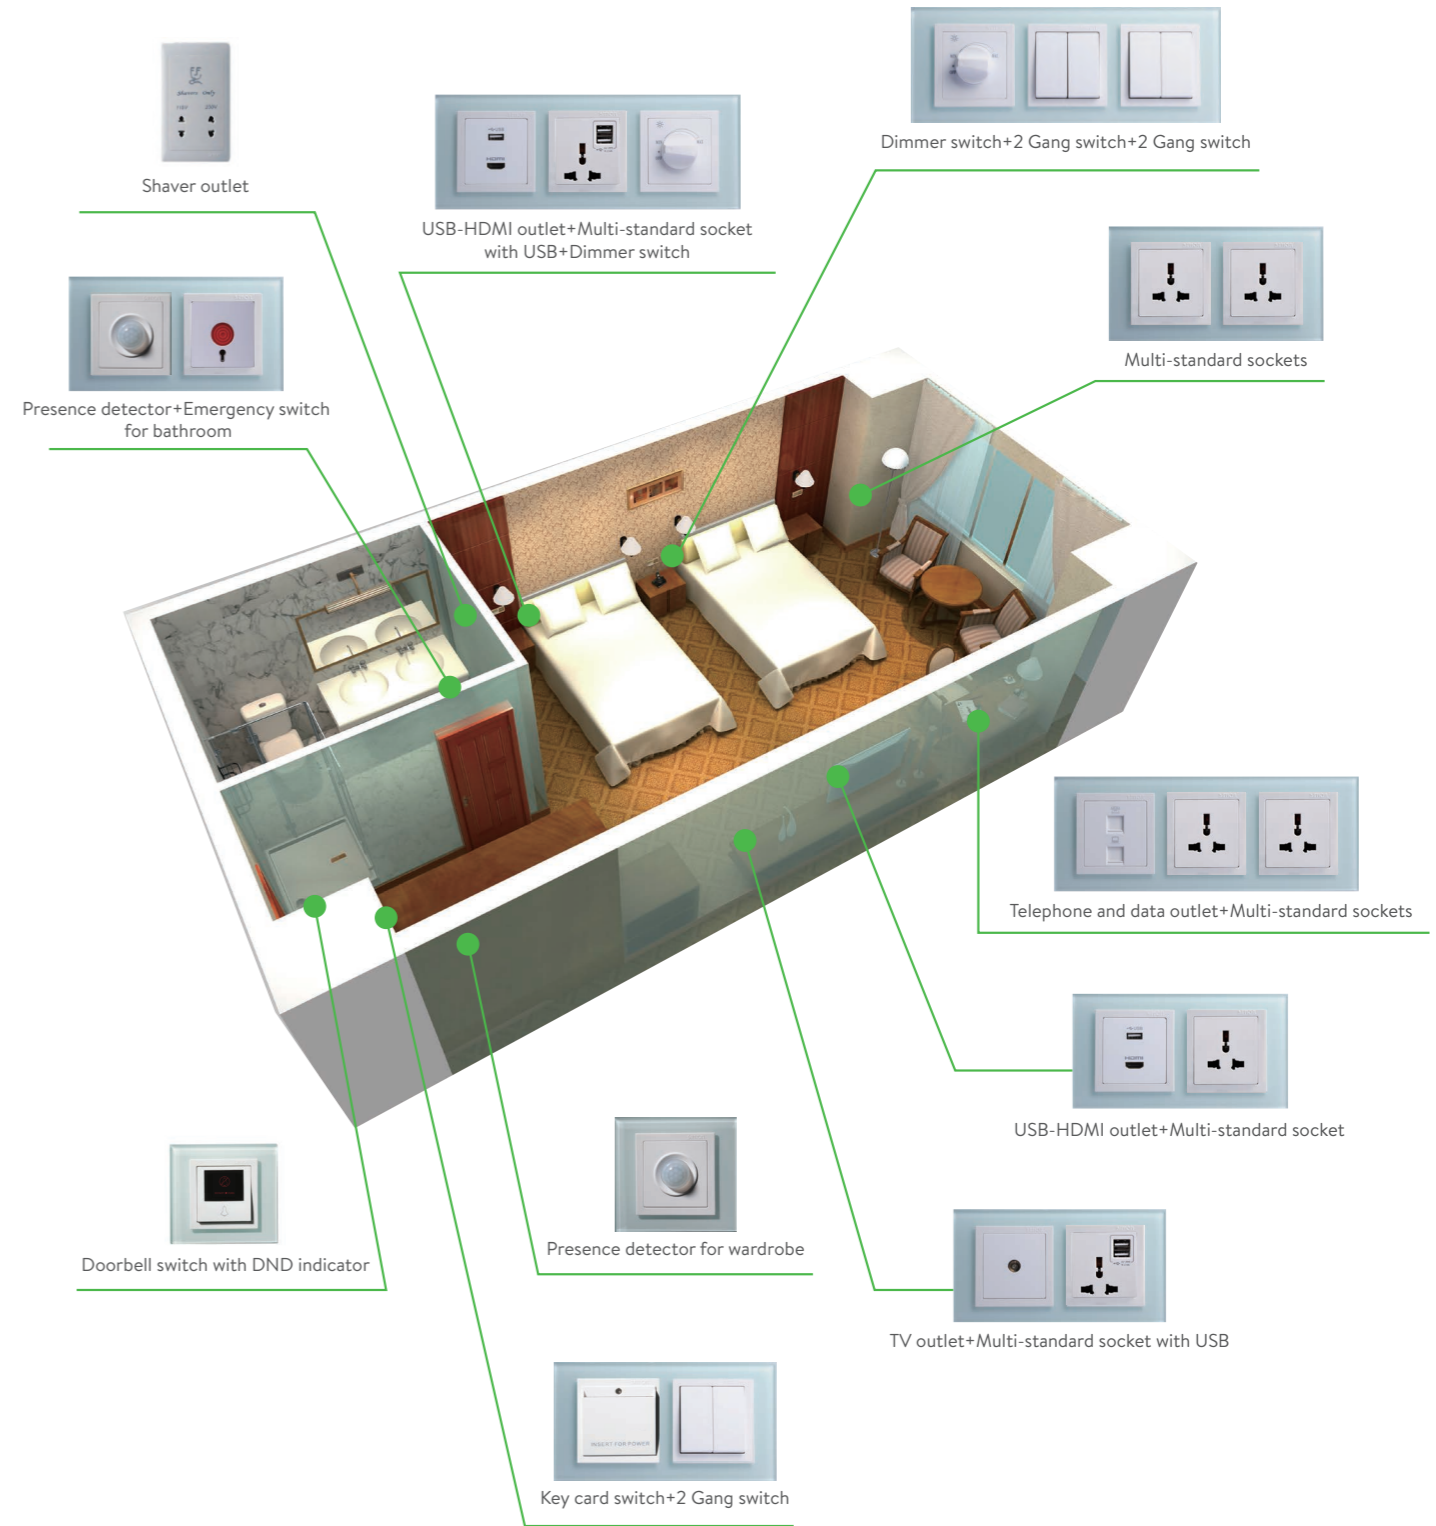

HDMI+USB, VGA-3.5 outlet, AV-S outlet.
V8 series of TV, data and telecommunications sockets enable to meet the multi-media needs for both home and commercial usage.
Suitable for business man, families and users, it is possible to enjoy entertainment and work efficiently.
